

## Technical Data Cell Master Creme™

Date of Origin: December 12, 1994

---

### General Description

Cell Master Creme™ is a thin alkaline cleaner that does not contain any chlorinated, fluorinated, acetone or methyl ethyl ketone. Cell Master Creme™ is excellent for cleaning water and solvent based inks off vertical equipment, walls, floors, etc. Apply by wiping or brushing on. After application, the surface should be agitated with a soft bristle brush for metal surface and hard bristle brush for ceramic anilox rolls.

### Physical Properties
